DUST FORESTS AGAINST BUGS;
OTHER WOOD INDUSTRY NOTES

PINE FORESTS DUSTED WITH INSECTICIDE -- Rzeczpospolita, No 153, 5 Jun 49

Over 25,000 hectares of pine forests have been attacked by tent caterpillars (*osmija giazdzista*?) in the Slask-Babrowa Wojewodztwo. Parzymiecha and Herba forests were especially threatened. Nine planes and over 200 persons are engaged in dusting the forests with insecticide three times a day. It is anticipated that by 16 June 1949 all areas affected will be covered with insecticide. Over 600 tons of insecticide will be used for this purpose.

WROCLAW SAWMILL PRODUCTION -- Rzeczpospolita, No 155, 8 Jun 49

The state forests in the Wroclaw Region completed the 3-year plan for sawmill production 101.5 percent by 31 May 1949, or 4 months before the close of the season. Total production of the Wroclaw Region State Forests was 932,000 cubic meters.

VALUABLE LUMBER TO BE SALVAGED -- Rzeczpospolita, No 155, 8 Jun 49

The Administration of State Forests in Bialystok signed an agreement with the GAIL (Gdynia-America Line) to raise some very valuable lumber sunk by the Germans.

The DLP (Dyrekcja Lasow Panstwowych, Administration of State Forests) estimates that about 20,000 cubic meters of lumber will be raised. A team of divers left for Angustynowo to start operations which are expected to last several months.

MORE TREES FOR ZAHY -- Rzeczpospolita, No 138, 21 May 49

In Zary, Wroclaw Wojewodstwo, about 6,000 young trees were set out in April and early May. In the fall, it is planned to set out about 1,500 ornamental trees and about 3,000 fruit trees.
